DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-8,10,12,14,15 and 26-36 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Luciano et al US Patent 6,758,393. Luciano discloses all of the instant application with respect to a (MCT) mobile cashier terminal (see figure 19a –19d and column 12) including a hand held embodiment of the mobile cashier terminal.

Column 2 discloses that the record of the voucher is passed to a player account server and the ability to process disbursment of non cash prizes. The MCT is used to expidite transactions, insure better monitoring of player identification, credit exchage, payouts, and gaming verification and recording of all transactions. Columns 3 and 4 disclose the

wireless and the monitoring and checking of all transactions wit ha player account server.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Luciano et al US Patent 6,758,393. Luciano discloses all of the instant application with respect to the claims above but lacks in specifically disclosing that the memory is removable from the MCT. Instead Luciano disclose in column 12 that the handheld MCT may comprise a portable computer of a type that is well known in the art and may use a Palm type software and platform. One of ordinary skill in the art would recognize that a removable memory is a part of a palm and therefore it would be obvious to one of ordinary skill to have a removable memory in the handheld MCT.

Response to Arguments

Applicant's arguments with respect to the pending claims have been considered but are most in view of the new ground(s) of rejection.

Citation of Pertinent Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Luciano et al '775

.Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
